Xerox® WorkCentre® 4265

Simplify how you share information.

Xerox® WorkCentre® 4265 Multifunction Printer

Transform the way you work. The WorkCentre 4265 streamlines everyday office communications, providing the solutions you need to collaborate more effectively through simplified digital and paper-driven workflows – securely and cost effectively.

A Complete Solution

- **Customized for your business.** Whether you choose a desktop or floor-standing model, you get copy, print, scan, email and fax* functionality, plus a range of finishing and media handling options that let you tailor the WorkCentre 4265 to your office environment.
- **No more waiting.** Designed for businesses with intensive workloads, the WorkCentre 4265 scans up to 70 ipm, copies and prints as fast as 55 ppm, and delivers the first page in as few as 8 seconds.
- **Define and control.** Xerox® Workflow Solutions, built on our Xerox Extensible Interface Platform®, hosted within the cloud or locally on a server, allows a highly personalized user experience and access to a range of useful applications directly from the color touch screen.
- **Complete security.** The WorkCentre 4265 offers state of the art security features to ensure your data is protected. Common Access Card (CAC) support enables users to encrypt and digitally sign electronic documents; 256-bit AES encryption is iron-clad, and secure print, fax, and email means your communication is both safe and secure.
- **Keep it confidential.** Password-protected Secure Print and Encrypted Hard Disk ensure that your data and documents remain solely yours.

Unprecedented Ease of Use

- **Xerox® Global Print Driver®.** This print driver is truly universal. One single driver enables IT administrators to install, upgrade, and manage Xerox® and non-Xerox® devices. The core features and functionality are the same across all devices, simplifying use for end-users. Faster proficiency and fewer mistakes reduce support calls while also simplifying print services management.
- **Network management made easy.** Get remote device monitoring and troubleshooting using Xerox® CentreWare® IS Embedded Web Server and CentreWare Web, as well as third party management systems. In addition, automatic email alerts notify administrators or users of events that require attention, such as low toner levels.
- **Streamline the process.** Print directly from a USB memory drive or scan and store for convenient printing later – no computer needed. The intuitive icon-based color touch screen not only supports capacitive swipe, but gives users easy instructions and help screens that make the entire process effortless.
- **Universal Address Book.** This time saver allows import/export of address books from other Xerox® products, saving significant time during initial setup as well as ongoing maintenance.

The compact design of the WorkCentre 4265 saves space and reduces energy consumption while never sacrificing the power you've come to expect from Xerox.

Minimize Costs

- Save paper with automatic two-sided copying and printing.
- Avoid extra printing with Fax Forward to Email.
- Separate toner cartridge and imaging unit consumables means you will be able to maximize the life of each while also decreasing overall supply costs.
- Reduce your utility bill with Energy Save Mode.

Maximize Time

- The compact size allows the device to be located conveniently within reach unlike a centralized tabloid-size multifunction printer.
- Create a dedicated, easy-to-locate scan button directly on the color touch screen interface and assign the Single Touch Scan button its own scanning workflow for fast document distribution and archiving.
- The Print Around feature automatically holds any job missing resources (such as a different paper size), and all other jobs in the queue will be processed as usual. Your document will print and your email and fax will be sent with no delay.
- Access multiple functions simultaneously; interrupt a print job to make a copy, or scan while printing or receiving an inbound fax.
- Our dual head scanner facilitates single-pass, two-sided scanning, and our class-leading advanced file compression dramatically reduces file sizes.

*Fax is optional on the WorkCentre 4265/S

The intuitive display guides you with easily recognizable icons for print, copy, scan fax or email, as well as 1-touch services and any custom solution installed.

- 1 100-sheet Single-pass Duplex Automatic Document Feeder scans two-sided documents in sizes up to 8.5 x 14 in.
Scan to email lets you route files to email recipients directly from the touch screen.
Network scanning uses convenient templates to send scans to predefined locations.
Scan to USB sends scanned images directly onto a portable USB storage device.
- 2 USB direct printing/scanning lets you save to or print directly from any USB memory drive.
- 3 Full 8.5 x 14 in. platen glass allows you to scan legal-size documents without removing staples.
- 4 100-sheet adjustable Multipurpose Tray.
- 5 520-sheet Tray 1 / Optional 520-sheet Tray.
- 6 2,100 sheet High Capacity Feeder boosts total paper capacity up to 3,240 sheets.
- 7 320 GB internal hard drive lets you handle more tasks at the device. Use the Save Print feature to keep frequently used documents available for quick printing on the go.
- 8 Advanced faxing capabilities include Embedded Fax and LAN Fax (for paperless faxing right from your desktop), plus Secure Fax Receive and Fax Forward to Email.
- 9 500-sheet stacker/stapler with 50-sheet stapling (single-position).
- 10 The capacitive color touch UI supports swipe and is intuitive for any user familiar with smart phones or tablets.

More flexibility regardless of location.

Improve your mobile printing experience.

- **Apple® AirPrint™.** Print email, photos and important office documents directly from your Apple iPhone® or iPad® with no drivers to install. With AirPrint, your iPhone or iPad automatically locates and connects to the AirPrint-enabled device over your office Wi-Fi network.
- **Xerox® Print Service Plug-in for Android™.** Android printing is simple without third-party apps or print drivers. This plug-in lets you easily print to a Xerox® MFP through a wireless network.
- **Xerox® Mobile Link App.** Scan, email and fax from your phone or tablet by connecting with our multifunction printers using this free app. Send data to and print data from cloud storage and create one-touch workflows between a mobile device and a multifunction printer.
